

## Reception - Week beginning 2.10.17

### Cross Curricular - autumn activities

We have been learning about the season of autumn this week. We talked about the change in temperature, the leaves, what we need to wear and what happens in autumn.

### Expressive Art & Design

The children made their own autumn trees by using their handprints and fingers. They look fantastic.

## Knowledge & Understanding of the World

Some of the children decided to investigate floating and sinking in the water today. They were testing various objects to see if they floated to the top or sank to the bottom.

## Independent activities

There has been lots of independent activities in the areas for the children to access this week. The children have been mark making, counting, threading, constructing, and drawing amongst other things! We've had a busy week!
