

Y6 Learning Journal

Week Beginning 18/9/17

RE-Loving

We have all spent time reflecting on our current topics Big Question. We have discussed the importance and need for unconditional love.

Numeracy

In Year 6 have become fluent at multiplying and dividing whole numbers and decimals by 10, 100 and 1000. We have spent time reasoning about different calculations and have developed our problem-solving skills.

Literacy

We have been learning all about how to write poetry. We have focused on river poems: including free form and acrostic poems. We learnt our written poems off by heart and presented them to the rest of the class. We also took videos of our presentations so that we could analyse them and improve them.

Science

In Year 6 we are studying Living Things and their Habitats. We have focused on the structure of flowers and have identified the key structure names from direct observation of a number of plants.
