

Y6 Learning Journal

Week Beginning 2/10/17

RE-Judaism

We have all spent time reflecting on the Jewish faith. We have become more aware of some of the most beliefs and customs. We really enjoyed watching some video clips, which showed how important prayer is in the lives of Jewish children.

Numeracy

In Year 6, we have developed our knowledge of short division calculations. We have also been reasoning about different patterns and sequences. We enjoyed investigating **'Prime Numbers'**

Literacy

We have been researching information on different areas around the River Tees. We are going to use this information to produce a persuasive leaflet, showing the many interesting places near it.

Primary/ Secondary Transition

We loved our morning at Trinity Catholic College. We took part in a fantastic food technology lesson, where we made delicious cupcakes! We also learnt more about what is expected of us as we approach secondary school.
