

Y6 Learning Journey
Week Beginning 27/11/17

RE- Expectations

We are really excited about our new RE topic **Expectations**. We have thought in detail about the expectations which we have of ourselves and the expectations which others have of us. We discussed how as we grow older we are expected to be more independent and responsible for our actions.

Numeracy- BODMAS

We have all really enjoyed developing our arithmetic skills. We carried out lots of calculations using BODMAS and BIDMAS! Mrs Taylor demonstrated how to use this to find different solutions to a number sentence, by adding brackets in different places. It was quite tricky to start with but we all made great progress!

Science- Characteristics of Old Age

We have developed our understanding of the human timeline and focused our learning on what happens to humans, both physically and mentally, as they reach old age. We worked in pairs to sort a collection of old age statements into true or false. Lots of discussion emerged from this.
