

Y6 Learning Journey
Week Beginning 8/1/18

RE-Sources

We are really excited about our new RE topic **Sources**. We have thought in detail about the different genre of books which we read and the purpose of different books.

Numeracy-Arithmetic

We have all rally enjoyed developing our arithmetic skills. As well as accuracy we are trying to use the most efficient methods and calculate as quickly as possible. We are continuing to develop our four rule calculations and focusing on fraction calculations.

As part of our reasoning with measures unit, we have investigated the area and perimeter of a variety of shapes.

Literacy/History- Story Teller Day

We have all made a fantastic start to our new cross curriculum toipc, The Great Greeks. We spent a day with a historical story teller -Tanya Brantham- which was fantastic. We will now be using our new knowledge to enhance our writing over the next few weeks.
