

## Y6 Learning Journal

Week Beginning 4/12/17

### RE- Expectations

We all worked very hard to produce picture collages linked to the hymn Maranatha. We thought about what images portrayed different aspects of the hymn and we linked these together. We shared these with our classmates and invited constructive advice.

### Numeracy- Division

In Year 6 have developed our knowledge of division. We can now divide whole numbers and decimals. We can give our answers as whole number remainders, fractions or decimals. We extended our fluency work into solving a range of one and two step problems.

### Literacy- Diary Writing

Diary writing has been our focus this week. We imagined what it would be like to go to school in Victorian Times. We used our Victorian Schools research to write emotive diary entries.

### PE- Basketball

We have all worked hard developing our basketball skills.

We make sure we always work as a team and support each other.
