

Literacy/Science

We explored Bluebell Woods and Hemlington to look at all the different trees, wild plants, and woodland animals. We did some tree rubbings on the bark. We also collected lots of leaves and twigs to look at when we got back to school! We had so much fun in the woods and loved exploring all the different plants and we even found a fairy garden! We saw a real fairy flying around! We all tried to catch them and take them back to our Enchanted Woodland in class, but they were too fast!

It was a great way to show how much we had learnt about this topic.

End of Topic Celebration

We always love it when our families can come into school and help us celebrate achievements over the half term. It was fantastic to see so many again. The children enjoyed being the story tellers of their own fractured Traditional Tales innovating the story of Hansel and Gretel with friends and family names and leaving pieces of Lego instead of breadcrumbs so they could find their way back to their flat after fleeing the horrible evil Giants, Gorillas, to name but a few. The children mad their stories come alive with the correct use of speech marks, exclamation marks and commas to assist their dramatic retells. Do not be surprised to see some of our Year 1 children's names on the front covers of children's books to come. We also had some very creative Gingerbread houses made by the children and their families.
