

Literacy

We have started to explore the Enchanted Woodland. Our story focus this half term is the traditional tale about Hansel and Gretel. We have looked at the elements that make up a Traditional tale before we create our own fractured fairy tale.

Numeracy

We have been revising 2d shapes and exploring how we can make some shapes using a limited amount of resources. Using only 7 sticks we had to work together to make 3 triangles. We searched for shapes and used our bodies to make some.

Science/Reading

We loved reading our favourite Traditional Tales in our new enchanted reading area around the fire pit. We researched plants and the different parts of the plant our food comes from.
