

Year 1 - Week Beginning 1st May 2017

Literacy

To help develop further our understanding of Traditional Tales we marked Mrs Sherwood's retell of *Hansel and Gretel*. We found she had missed out speech marks, exclamation marks and forgot to use capital letters for all the nouns. We started to plan out our own Traditional Tale looking at story openings and describing settings.

Numeracy

In numeracy, we identified and learnt about the properties of 3D shapes. We searched the school and classroom for examples of 3D shapes and then sorted them into groups to our own criteria.

Science

As part of our Science Topic Plants, the children went on a wild plant hunt. They completed a tally chart and created a whole class data sheet when we got back to the classroom. We discovered we all liked butter and hated nettles.
