

## Y6 Learning Journey

Week Beginning 22/1/18

### RE-Sources

We have thought in detail about the different passages which we have been researching in the Bible. We have been researching the different books of the bible- focusing on both the Old Testament and the New Testament. Each of us had to retell our favourite passage/story; giving reasons for our choice.

### Numeracy- **Discovering Equivalence**

We have all rally enjoyed developing our mathematical skills. We have been looking at calculations which involve fractions. Some of the work was quite tricky to start with but we all persevered and made great progress!

We are continuing to develop a wide range of our arithmetic skills. We know what we need to do to make good progress.

### Literacy- **Greek Myths**

We read and responded to a version of Theseus and the Minotaur. We also wrote own comprehension questions for our partner to respond to. We had great fun designing and describing our own mythical creature.

## **Science/Art- Earth and Space**

We have made a fantastic start to our new science topic and we are all keen to learn new things about Earth and Space, we have looked at all of the planets in our solar system and produced some fact files to show the key features of each planet.
