

Y6 Learning Journey
Week Beginning 19/2/18

RE- Unity

We are really excited about our RE topic **Unity**. We have been thinking about how we are all united when we gather in prayer, in school or as a parish-at St Mary's Cathedral. We have been looking at a selection of prayers and linking them to other religious sources.

Numeracy- Statistics

We have spent this week investigating a range of statistical devices. We have shown that we can draw and interpret line graphs and pie charts. We had to make sure we looked very closely at the scale being used in order to interpret the data accurately.

Step-up -Secondary Transition

Mr Foster has been coming into school and working with us on a number of different topics. We have talked about showing racism the red card. We are all very excited about entering our ongoing poster designs into the 'Show Racism the Red Card' competition.

We love our sessions with Mr Foster and are becoming more aware of how we will be expected to contribute to our World Wide Community.
