

RE-Baptism

We started to look at the sacrament of Baptism in RE. We talked about how this is how children and sometimes adults are welcomed in to the church.

Literacy

Our visit to the Transporter Bridge inspired us to write a fact file about it to share with our friends in Reception.

Numeracy

We continued to learn how to write our numbers in words and digits. We practiced counting in 2's, 5's and 10's .

Science

We had great fun exploring our sense of taste we investigated what we thought the different white foods could be by tasting them. Some of us enjoyed tasting some of the foods more than others.
