

RE-Advent

Advent is a time of waiting we made advent wreaths and discussed the significance of the advent candles and their meaning.

Literacy

This week we used our skills and knowledge to write our diaries about what it was like in school years ago. We used the information Mr Smurthwaite told us when he visited. Some of the children received a special sticker from Head Teacher for their fantastic writing.

Numeracy

We have been looking at the properties of 3d shapes. We had to describe them using mathematical vocabulary, select particular named shapes and sort them with criteria we generated ourselves. We used playdough and straws to make our own and write about their properties.

Parents Visit Reading

It was great seeing so many parents come in to school and spend the afternoon with the children completing a book review based on the children's favourite story.
