

RE-Baptism

We started a new topic in RE. We talked about how we all belong to different groups and it is important to feel like we belong to something. We learnt we belong to football, swimming, dancing and school groups.

Literacy

It is all about writing letters this week. We learnt the features of a letter and how it is set out.

Numeracy

One more and one less and reading and writing numbers one hundred kept us busy in Maths. We used 100 squares and number lines and grouping to help us answer the questions.

Science

Using our sense of touch we used our hands to explore different textures. We used lots of descriptive words to describe the materials and objects to our friends who had to try and guess what it was we were feeling.
