

**Y6 Learning Journey**  
**Week Beginning 12/3/18**

**RE- Death and New Life**

As we are now in the season of Lent and Easter is approaching, we are all thinking about how we can prepare ourselves. We have started to learn a new Easter hymn, which we are going to perform in the School Easter Liturgy. We spent a lot of time reflecting on the hymn 'I am the Bread of Life'. We made links between this and other religious sources.

**Numeracy- Visualising Shape**

We have described the properties of 3D shapes (using models we have made).

We are now confident to use the terms edges, faces and vertices to give clear explanations for these terms. We have investigated the nets of 3D shapes, and can identify from the net which 3D shape will be made?

**Literacy- Explanation Text**

We have completed our explanation writing for a 'Pop up Umbrella'. We worked really hard and have shown that we can use a wide range of punctuation, vocabulary choices and sentence types.

We enjoyed reading some of our explanation texts out to the rest of the class and the inviting constructive criticism.

**Music-School Praise**

We have been learning the songs to 'Joseph and his Amazing Technicolour Dreamcoat' during our school music lessons- for the past four weeks. This week we put all of the hard work and practise into action!

We all had a fantastic time representing the school at 'School Praise' in St Mary's Cathedral.

We took part in singing a range of Lenten hymns, we listened to readings and then the highlight was singing all of the songs from 'Joseph and his Amazing Technicolour Dreamcoat.' It was fantastic!
